

M.R. Snyder Company

Industrial Drives & Control Systems and Products

Established in 1945, M.R. Snyder Company is a system integrator for industry-leading products who specializes in providing complete industrial control systems for our customers, including:

- Coordinated drive and control systems
- Servo/Motion Control systems
- PLC- and PC-based systems
- Supervisory Control and Data Acquisition (SCADA) systems
- Industrial Networking systems and Safety systems

At M.R. Snyder Company, we excel at retrofitting manufacturing equipment. If your production equipment has obsolete components, reliability problems, or does not have enough capacity, give us a call. We provide complete documentation, start-up, and training services for all of our systems. Our staff of highly qualified Professional Engineers design, build, program, and commission all the systems we build and are on call 24 hours a day, 7 days a week to support your needs.

The Siemens Authorized Solution Provider Program: Your Team for Success

Siemens offers the most comprehensive solution platform for industrial automation tasks in a package called "Totally Integrated Automation." Totally Integrated Automation gives Siemens Automation Solution Providers the best tools to implement integrated and economical automation solutions for your individual requirements.

Siemens Automation Solution Providers are specialists with first-class industrial knowledge, certified competence in products and systems, and expertise in Totally Integrated Automation.

Authorized Siemens Solution Provider

M.R. Snyder Company is an Authorized Siemens Solution Provider and can provide Siemens Totally Integrated Automation solutions for customers. This means that your entire automation project is configured and managed as ONE project, ONE database! PLCs, HMIs, drives, SCADA systems, and other smart devices are seamlessly integrated. Networks and communications are easily built.

Siemens has a tremendous range of hardware and software offerings. By choosing M.R. Snyder Company, you are choosing expertise, flexibility, timely response, and competitiveness with the backing of a global leader. Take the time to let us demonstrate Totally Integrated Automation to your company. You won't be disappointed.

What Is a Siemens Solution Provider?

Siemens Automation Solution Providers are independent system integrators carefully selected by Siemens based on their proven capabilities and history of good work for customers. Solution providers undergo constant training, ensuring that customers will always find competent partners nearby who are

working at the cutting edge of technology. They build the systems and panels, provide start-up assistance and training, and offer many other value-added services.

Systems Capabilities	Services	Markets
<ul style="list-style-type: none"> • AC Drive Systems • DC Drive Systems • Servo/Motion Control • PLC-based • PC-based • HMI • SCADA • Machine Safety • Networking 	<ul style="list-style-type: none"> • Evaluation/Proposal • New System Design • System Retrofits • Electrical Design • Professional Engineers on staff • PLC Programming • PC Programming • HMI Programming • SCADA • U.L. Panel Shop • Startup • Training • Project Leasing • 24/7 Service 	<ul style="list-style-type: none"> • Automotive • Chemicals • Fibers • Film • Food & Beverage • Furniture • Material Handling • Non-Wovens • Paper • Pharmaceuticals • Plastics • Printing • Textiles • Metals

Proud Partnerships

M.R. Snyder Company is proud to be partnered with Siemens, the global leader in industrial automation, and with CCA, an industrial automation products leader, to bring you the complete package of support called Totally Integrated Automation.

How Can CCA/WESCO Help You?

Control Corporation of America (CCA) has been focused on industrial automation products since 1979. CCA has been a division of WESCO Distribution, Inc. since early 2000.

WESCO is a Fortune 500 distributor of electrical and general MRO products. Formed in 1922, WESCO has 350 full-service Branches, 5,200 skilled employees, and five high-tech Distribution Centers that provide over 1,000,000 products to more than 100,000 customers worldwide. As a member of WESCO's Family of Companies, CCA can supply all your electrical and general MRO product needs.
